SUMMARY

A Computer Science graduate with hands-on experience in full-stack web development, building scalable and responsive web applications using Go (Fiber), React.js, Node.js, Express.js, PostgreSQL, and MongoDB. Skilled in developing RESTful APIs, responsive user interfaces, JWT authentication, and database design. Strong in problem-solving, collaboration, and continuous learning, with a career focus on becoming a professional Full Stack Developer.

EXPERIENCE

Frontend Web Developer Intern **October 2026 – Present**
Mahreen Indonesia – **Remote, Bandung**

- Developed and maintained frontend features using React.js, TypeScript, and Tailwind CSS, collaborating with UI/UX designers and backend developers to deliver consistent and functional web applications.
- Fixed product detail page data inconsistencies in Mahreen Studio by aligning product data sources between product listings, collections, and detail pages with the same public API.
- Improved product navigation by ensuring product links use API-recognized slugs and retrieving product details from the same public data source as product listings, displaying “Product Not Found” only when the API confirms the product is unavailable.
- Collaborated with backend developers to understand API endpoints, troubleshoot data integration issues, and ensure consistent product information across frontend pages.
- Followed the team's Git workflow and development standards, including feature branches, code synchronization, and structured changes to maintain code quality and reduce integration conflicts.
- Served as the Person in Charge (PIC) for the Frontend Intern division, coordinating task progress, facilitating communication among frontend interns, and helping ensure that assigned development tasks followed project requirements and deadlines.

IT Intern **September 2026 – Present**
Singapore Intercultural School Cilegon – **Onsite, Cilegon**

- Assisted the IT teacher in delivering IT lessons and supporting classroom activities, including guiding students during practical learning sessions.
- Assisted in teaching ScratchJr for introductory programming, Tinkercad for 3D modeling for Upper Primary 4 to Secondary 2 students, and TypingClub to develop typing skills for Lower Primary 1 to Primary 4 students.
- Supported the preparation of IT learning materials and classroom activities, including assisting with speech competition preparation and other school programs.
- Supported IT operations and device management in school laboratories, ensuring equipment was properly organized, maintained, and ready for use.
- Assisted with IT-related administrative tasks, including organizing and labeling school devices such as iPads and laptops.
- Collaborated with teachers and staff to support educational technology integration and ensure the smooth operation of IT resources in daily school activities.

Frontend Developer Intern **August 2026 – September 2026**
Saiket Systems – **Remote, India**

- Completed 6 hands-on Front-End Development projects using React, TypeScript, JavaScript, Tailwind CSS, HTML5, and CSS3, covering responsive layouts, reusable UI components, and interactive web applications..
- Developed a semantic blog post layout, interactive product card, and responsive webpage layouts, applying CSS Grid, Flexbox, media queries, and modern responsive design principles for desktop and mobile devices.
- Built a multiple-choice Quiz Application with answer validation, question navigation, score calculation, and result display using JavaScript and DOM manipulation.
- Developed a To-Do List Application supporting task creation, editing, deletion, completion tracking, filtering, and task management using HTML, CSS, and Vanilla JavaScript.
- Applied responsive design and frontend development practices across projects to deliver consistent and functional user interfaces across different screen sizes.

Frontend Web Developer Intern **July 2024 – August 2024**
Dinas Pendidikan Kota Cilegon – **Onsite, Cilegon**

- Developed the complete website user interface using semantic HTML5, modular CSS3, and Vanilla JavaScript, focusing on maintainable structure and interactive functionality.
- Implemented responsive layouts across the website using Tailwind CSS, ensuring consistent user experiences across desktop, tablet, and mobile devices.
- Optimized frontend code structure and website assets to improve page performance and maintainability while ensuring compliance with W3C validation standards.
- Conducted cross-browser testing and frontend debugging to identify and resolve rendering and functionality issues, ensuring consistent website behavior across major browsers.

PROJECT

Full-Stack Go & React.js Project Management System (demo video) (source code)

- Developed a full-stack web application designed to manage projects, tasks, and team collaboration using Go (Fiber) and React.js.
- Implemented core backend features including RESTful API architecture, GORM ORM, PostgreSQL, and JWT-based authentication.
- Built an interactive Kanban board experience using Dnd Kit, Material UI, and Recharts for project data visualization, along with production deployment on a Linux VPS using Nginx and PM2.

Event Management Web Application (demo) (source code)

- Built a full-stack event management web application using the MERN Stack (MongoDB, Express.js, React.js, Node.js) following Scrum methodology.
- Integrated modern frontend tools including React JS 19, Next JS 15, Tailwind CSS, Hero UI, and Tanstack React Query.
- Implemented third-party services such as Midtrans payment gateway, Cloudinary media storage, Nodemailer with Zoho SMTP, and Swagger API documentation.

NexaFlow — Modern Landing Page (demo) (source code)

- Developed a modern landing page using React.js, TypeScript, and Vite with a reusable component-based architecture.
- Built 8+ responsive sections and reusable UI components, including Hero, Features, Pricing, Testimonials, FAQ, Contact, Navbar, and Footer.
- Implemented interactive functionality including mobile navigation, FAQ accordion, and contact form validation using React state management, event handling, and React Hook Form.
- Applied responsive design and UI animations to deliver a consistent user experience across desktop, tablet, and mobile devices.
- Added SEO and social media metadata, custom favicon, and verified the production build for deployment readiness.

Prestige Palace Residence Web Application (demo) (source code)

- Designed and developed a responsive multi-page property website showcasing modern residential housing, facilities, and blog content.
- Created responsive layouts and custom components using Bootstrap 5.3.3 and custom CSS.
- Added interactive animations and user experiences using Vanilla JavaScript, GSAP, and AOS, alongside Google Maps integration.

Decision Support System – Dinas Pendidikan Kota Cilegon

- Created a web-based application to assist the Education Office of Cilegon in determining priority needs for educational facilities and infrastructure.
- Implemented the MOORA method for multicriteria decision-making to deliver accurate prioritization results and structured reporting.

EDUCATION

Universitas Islam Negeri Malang - Malang, Indonesia **2021 - 2025**
Bachelor Degree in Informatics Engineering, (GPA: 3.75/4.00)

Thesis: Sistem Pendukung Keputusan Penentuan Prioritas Pengadaan Sarana dan Prasarana pada Satuan Pendidikan di Kota Cilegon menggunakan Metode MOORA

COURSE & CERTIFICATIONS

- **Fullstack Go ReactJS: Sistem Project Management (link)** **2026**
  WPU Course
- **MERN Stack Course (link)** **2026**
  WPU Course
- **Cloud Engineer Bootcamp batch 6 (link)** **2026**
  PT Mastersystem Infotama Tbk
- **Speak Up 2 Class (link)** **2025**
  Mr. Bob Kampung Inggris
- **Speak Up 1 Class (link)** **2025**
  Mr. Bob Kampung Inggris

ADDITIONAL

Hard Skills : Golang, React.Js, Node.Js, Express.js, PostgreSQL, MongoDB, Postman, Tailwind CSS, Bootstrap, JavaScript (Vanilla JS/ES6+), HTML5 (Semantic Markup), CSS3 (Modular CSS), System Coordination & Monitoring**,** Figma, Programming, Microsoft Word, Microsoft Excel, Microsoft Power Point

Soft Skill : Attitude & Growth**,** Adaptive, Communication & Professionalism, Collaboration & Team Dynamics, Discipline, Time Management, Team work, Coordination & Management

Other Certifications : Frontend – ReactJS by MySkill, Frontend – VueJS by MySkill, Frontend – JavaScript by MySkill, Frontend – CSS by MySkill, Frontend – HTML by MySkill, Belajar Dasar Pemrograman Web by Dicoding Indonesia, Bootstrap 5 – Membuat Website Landing Page by Skilvul, CSS (Basic) Certificate by HackerRank, React Dasar by Skilvul, Machine Learning with Python by Cognitive Class, python 101 for Data Science by Cognitive Class
