SUMMARY

Informatics Engineering graduate and hands-on experience in full-stack and frontend web development. Proficient in building responsive web applications, developing RESTful APIs, integrating backend services, and managing relational and NoSQL databases using Go (Fiber), Next js, React.js, Node.js, Express.js, Tailwind CSS, PostgreSQL, and MongoDB. Experienced in collaborative software development, API integration, Git-based workflows, and production deployment. Demonstrates strong problem-solving, technical adaptability, and cross-functional collaboration skills, with a focus on delivering maintainable and user-centered software solutions.

EXPERIENCE

Frontend Web Developer Intern **October 2026 – Present**
Mahreen Indonesia – **Remote, Bandung**

- Develop and maintain responsive frontend features using React.js, TypeScript, and Tailwind CSS in collaboration with UI/UX designers and backend developers.
- Resolved product detail data inconsistencies in Mahreen Studio by synchronizing product listings, collections, and detail pages with a unified public API data source.
- Improved product navigation and data retrieval by implementing API-recognized product slugs and aligning product detail requests with the same source used by product listings.
- Implemented conditional product error handling to display "Product Not Found" only when the API confirms that a product is unavailable.
- Collaborate with backend developers to analyze API endpoints, troubleshoot integration issues, and maintain consistent data across frontend modules.
- Follow structured Git workflows, including feature branching, code synchronization, and collaborative development standards to minimize integration conflicts.
- Appointed as Person in Charge (PIC) of the Frontend Intern division, coordinating intern task progress, facilitating team communication, and monitoring deliverables against project requirements and deadlines.

IT Intern **September 2026 – Present**
Singapore Intercultural School Cilegon – **Onsite, Cilegon**

- Supported IT instruction and classroom activities by assisting teachers and guiding students through hands-on technology learning sessions.
- Facilitated introductory programming activities using ScratchJr, 3D modeling exercises using Tinkercad for Primary 4 to Secondary 2 students, and typing practice using TypingClub for Primary 1 to Primary 3 students.
- Prepared digital learning materials, classroom equipment, and practical activities to support the delivery of IT lessons.
- Managed and organized IT laboratory equipment, ensuring iPads, laptops, and other learning devices were properly labeled and ready for classroom use.
- Provided IT operational and administrative support to teachers and school staff, helping maintain the availability and organization of educational technology resources.
- Collaborated with teachers and staff to support technology integration and school activities, including speech competition preparation.

Frontend Developer Intern **August 2026 – September 2026**
Saiket Systems – **Remote, India**

- Completed 6 hands-on frontend development projects using React.js, TypeScript, JavaScript, and Tailwind CSS. Covering responsive layouts, reusable UI components, and interactive web applications.
- Developed responsive web interfaces and reusable UI components using semantic HTML, CSS Grid, Flexbox, and media queries.
- Built an interactive Quiz Application featuring answer validation, question navigation, automated score calculation, and result presentation using JavaScript and DOM manipulation.
- Developed a functional To-Do List Application with task creation, editing, deletion, completion tracking, and filtering using Vanilla JavaScript.
- Applied responsive web design principles and frontend development best practices to deliver consistent user interfaces across desktop and mobile devices.

Frontend Web Developer Intern **July 2024 – August 2024**
Dinas Pendidikan Kota Cilegon – **Onsite, Cilegon**

- Developed the website's frontend interface using semantic HTML5, modular CSS3, and Vanilla JavaScript to deliver structured and interactive web pages.
- Implemented responsive layouts using Tailwind CSS, ensuring consistent presentation across desktop, tablet, and mobile devices.
- Optimized frontend code structure and website assets to improve maintainability and support efficient page rendering.
- Conducted cross-browser testing, frontend debugging, and W3C validation to identify and resolve layout, rendering, and functionality issues.

PROJECT

Full-Stack Go & React.js Project Management System (demo video) (source code)

- Developed a full-stack web application designed to manage projects, tasks, and team collaboration using Go (Fiber) and React.js.
- Implemented core backend features including RESTful API architecture, GORM ORM, PostgreSQL, and JWT-based authentication.
- Built an interactive Kanban board experience using Dnd Kit, Material UI, and Recharts for project data visualization, along with production deployment on a Linux VPS using Nginx and PM2.

Event Management Web Application (demo) (source code)

- Built a full-stack event management web application using the MERN Stack (MongoDB, Express.js, React.js, Node.js) following Scrum methodology.
- Integrated modern frontend tools including React JS 19, Next JS 15, Tailwind CSS, Hero UI, and Tanstack React Query.
- Implemented third-party services such as Midtrans payment gateway, Cloudinary media storage, Nodemailer with Zoho SMTP, and Swagger API documentation.

NexaFlow — Modern Landing Page (demo) (source code)

- Developed a modern landing page using React.js, TypeScript, and Vite with a reusable component-based architecture.
- Built 8+ responsive sections and reusable UI components, including Hero, Features, Pricing, Testimonials, FAQ, Contact, Navbar, and Footer.
- Implemented interactive functionality including mobile navigation, FAQ accordion, and contact form validation using React state management, event handling, and React Hook Form.
- Applied responsive design and UI animations to deliver a consistent user experience across desktop, tablet, and mobile devices.
- Added SEO and social media metadata, custom favicon, and verified the production build for deployment readiness.

Prestige Palace Residence Web Application (demo) (source code)

- Designed and developed a responsive multi-page property website showcasing modern residential housing, facilities, and blog content.
- Created responsive layouts and custom components using Bootstrap 5.3.3 and custom CSS.
- Added interactive animations and user experiences using Vanilla JavaScript, GSAP, and AOS, alongside Google Maps integration.

Decision Support System – Dinas Pendidikan Kota Cilegon

- Created a web-based application to assist the Education Office of Cilegon in determining priority needs for educational facilities and infrastructure.
- Implemented the MOORA method for multicriteria decision-making to deliver accurate prioritization results and structured reporting.

EDUCATION

Universitas Islam Negeri Malang - Malang, Indonesia **2021 - 2025**
Bachelor Degree in Informatics Engineering, (GPA: 3.75/4.00)

Thesis: Sistem Pendukung Keputusan Penentuan Prioritas Pengadaan Sarana dan Prasarana pada Satuan Pendidikan di Kota Cilegon menggunakan Metode MOORA

COURSE & CERTIFICATIONS

- **Fullstack Go ReactJS: Sistem Project Management (link)** **2026**
  WPU Course
- **MERN Stack Course (link)** **2026**
  WPU Course
- **Cloud Engineer Bootcamp batch 6 (link)** **2026**
  PT Mastersystem Infotama Tbk
- **Speak Up 2 Class (link)** **2025**
  Mr. Bob Kampung Inggris
- **Speak Up 1 Class (link)** **2025**
  Mr. Bob Kampung Inggris

ADDITIONAL

Technical Skills : Golang (Fiber), Next Js, React.Js, Node.Js, Express.js, PostgreSQL, MongoDB, JWT Authentication, GORM, Git, Github, Swagger, Vite, Postman, Midtrans, Cloudinary, Nodemailer, Tailwind CSS, Bootstrap, Material UI, Hero UI, React Hook Form, Tanstack React Query, Responsive Web Design, JavaScript (Vanilla JS/ES6+), HTML5 (Semantic Markup), CSS3 (Modular CSS), System Coordination & Monitoring**,** Figma, Programming, Microsoft Word, Microsoft Excel, Microsoft Power Point

Soft Skill : Attitude & Growth**,** Adaptive, Communication & Professionalism, Collaboration & Team Dynamics, Discipline, Time Management, Team work, Coordination & Management

Other Certifications : Frontend – ReactJS by MySkill, Frontend – VueJS by MySkill, Frontend – JavaScript by MySkill, Frontend – CSS by MySkill, Frontend – HTML by MySkill, Belajar Dasar Pemrograman Web by Dicoding Indonesia, Bootstrap 5 – Membuat Website Landing Page by Skilvul, CSS (Basic) Certificate by HackerRank, React Dasar by Skilvul, Machine Learning with Python by Cognitive Class, python 101 for Data Science by Cognitive Class
